Subject: FW: Request from Senator Brenden

Here are the answers Senator Brendan's questions regarding FWP fishing access sites. Please see below in red. This information, coupled with I sent along yesterday, completes Lands' responses to the portions of Senator Brendan's questions that were directed to us. Feel free to contact me or James Colegrove at Lands if more questions arise.

Subject: Request from Senator Brenden

Hugh, Senator Brenden stopped over today and asked for the following:

The number of fishing access sites FWP owns: 248 fishing access sites (FAS's) are in FWP fee ownership. Overall we have 337 FAS's, a total that includes 89 sites that are leased, operated by permit or managed under some other form of agreement. Typically these arrangements are between FWP and other state agencies (DNRC, MDT), local governments or federal agencies (BuRec, Corps of Engineers).

Total acreage: FWP owns 16,653 acres of fishing access sites. This is the acreage contained in the 248 fee-owned sites noted above.

Name, location and size of our three largest FAS's:

Largest FAS -> *Thompson Chain of Lakes FAS* in Lincoln County (*FWP Region 1*) has 2,988 acres in fee ownership

2nd Largest FAS -> *Fairweather FAS* in Gallatin County (*FWP Region 3*) has 719 acres in fee ownership

3rd Largest FAS -> *Kelly Island FAS* in Missoula County (*FWP Region 2*) has 706 acres in fee ownership
